Web developers and designers can spend countless hours keeping track of Web files, updating progress reports, and relaying client feedback. Macromedia Sitespring changes all this. Sitespring is a new Web-based application for managing the Web site production process. Professional Web teams can be more productive (and more profitable) by streamlining team collaboration, file management, and client communications with Sitespring. For example, users can keep track of a complex Web project by sharing and delegating tasks and reports, reviewing mock-ups, messages, and threads, and communicating easily with internal and external clients. 232 pp. Deutsch.
