Complications. -- Polyuria. --Termination of Case. --Autopsy. --Modes of Termination of the Disease. --Stages of the Process. -- Explanation of the Albuminuria. C ENTLEMEN, --I take the opportunity to-day of drawing your attention to a pure example of waxy or amyloid disease of the kidneys, from which those of you who attended my wards last summer have already learned some useful lessons. The case was that of the patient A. D. , who came in on 27th May, 1886, suffering from polyuria. His urine was of very low specific gravity--as a rule, about 1005, or even lower, and at the time of his admission was free from albumen. The case looked at first like one of diabetes insipidus, but very shortly after his admission it was found that, though cold nitric acid continued to give no perceptible reaction, some of the more delicate tests did give a slight..
